Name#: _____

Block: _____

Directions: Answer each question below in complete sentences with GREAT elaboration and thoughtful insight.

1. In reading "4 –year-old finds 94-million-year-old fossil…", think about what the author thought you already knew that caused confusion. **Discuss two details that confused you and what problem(s) each detail caused in your reading**. Don't choose two details that caused the same problem. **What solution did you or could you have used to solve this problem during your reading of the article?**

2. Review the article and discuss one detail that surprised you. Why did it surprise you and what does it suggest?

3. Discuss a "quoted word" that helped you better understand content from the article. What is the quote, who said it, what did it help you better understand, and how did it help you?
