Reading

This week we will continue working on the second module of ReadyGen by finishing the story *Treasure in the Trees* and moving into the book *About Earth*. The skills we will be focusing on this week are determining the central message in a story, using text features to better understand what is being read and using illustrations to determine the importance of key information. **We will have a reading test on Friday.**

Grammar

Our grammar skills are focused on producing sentences. We will first learn about subject-verb agreements in the future tense and then move into understanding adjectives and articles.

Phonics

Our phonics skill this week focuses on vowel diphthongs; ou, ow, oi and oy in words.

Spelling

We will continue to review and practice the Unit 1B: Lesson 6-10 words this week. This is the same list students came home with last week. **There will be a spelling test this Friday.**

Writing

Throughout this module students will learn to understand how to convey information about main ideas and details through text features and illustrations. Last week students used their ipads and resources in the library to research bats. As a class we are drafting and writing an informational paper on bats.

Math

We will complete Unit 2 this week. We will review all of the Unit 2 skills by completing a study guide. This will be sent home for review and students will complete the **Unit 2 Progress Check on Friday.**

Social Studies

We will continue learning about what makes a good community and what makes us proud of where we live. We will finish this chapter this week and complete notecards to review for the **Chapter 1 test on Wednesday.**
