Modern Day Africa

Types of Governments:

- One Party –Rule- one political party controls the government.
- Military Rule- military controls the government.
- Democracy- people vote for representatives in government.

Economic Systems:

- Socialism- government controls most aspects of economic system such as industry.
- Mixed economy- some government control and some individual control.
- Future goals: Build more industry (factories) & produce goods for own use.

Cities:

- Offer better opportunities for people such as jobs, health care, and education.
- Most people in cities today, however, remain poor.
- Many shantytowns have developed due to high rates of poverty.

Education:

- Major goal- to increase literacy.
- Many schools don't have enough supplies or money
- Teachers in many village schools have little training
- Few people in Africa go on to higher education.

Medical Crisis:

➤ List 3 reasons for the AIDs Crisis in Africa:

1. Lack of Education

2. Poverty

3. Lack of medical care/proper medicine
