Click on **ARTICLE** and watch the short video of the Titanic.

Click on INTERACTIVES and then the picture to answer the following questions.

- Which weighed more the ship's rudder or one of it's anchors?
- Was the Titanic longer than a football field?
- How many pieces of fruit could each person aboard have?
- If a person went into the water, how long were they expected to last?
- What group (1st Class, 2nd Class, 3rd Class, Grew) had the lowest survival rate and why?
- How far below the surface does the Titanic rest today?
- Who was the last survivor and when did she die?
