Reading

This week we will continue working on the second module of ReadyGen by reading the story *Treasure in the Trees*. The skills we will be focusing on this week are conveying information through text features, using illustrations to convey information and developing the sequence of events in a story.

Grammar

Our grammar skills are focused on producing sentences. We will first learn about subject-verb agreements in the present tense and then move to understanding subject-verb agreements in the future tense.

Phonics

Our phonics skill this week focuses on vowel diphthongs; ou, ow, oi and oy in words.

Spelling

We will begin to review and practice the Unit 1B: Lesson 6-10 words this week. Please see the "Spelling and Vocabulary Words" tab on my website for the week's spelling and vocabulary word lists. **There will not be a spelling test this week.**

Writing

Throughout this module students will learn to understand how to convey information about main ideas and details through text features and illustrations. This week students will practice grouping related information in non-fiction writing, use linking words to connect, compare and contrast ideas, and develop a topic with details.

Math

We will continue to explore and build our multiplication and division skills this week. In doing so the students will show their understanding of multiplication by using arrays, draw to represent knowledge of division number stories and model division through number stories.

Social Studies

We will continue learning about what makes a good community and what makes us proud of where we live. Then we will learn about the location of communities by studying maps and locating objects and locations on the map.
